When should my child stay home from school due to illness?

Here are a few general guidelines listed below. However, there are often situations that require your best judgement as a parent as you know your child better than anyone else.

Our goal is to have every child functioning at their best ability each day at school.

A good night's sleep and a healthy breakfast are two very simple and helpful ideas.

-If your child has a temperature of 100 degrees or higher before administering a medication to help bring it down.

-If your child has diarrhea

-If your child is vomiting

-If your child has an unexplained rash on his/her body

-If your child has a communicable disease

How Can You Prevent Spreading Germs That Cause Sickness?

*Cover coughs and sneezes using a strong tissue or the crease of your elbow.

*Keep tissues and hand cleaners handy and use them.

*Do not cough into your hands.

*Do not sneeze into your hands.

*Keep your fingers away from your eyes, nose and mouth.

*Stay up to date on immunizations.

HAPPY BIRTHDAY
